

Tips: Calibration

1

Hold down the power button on Ozobot for 2 seconds until the LED light turns white.

2

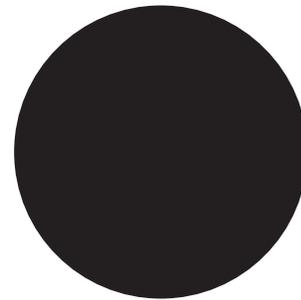

Quickly Place Ozobot in the middle of the black calibration dot.

3

Ozobot will move forward and blink green, which means it has successfully calibrated. Start over if Ozobot blinks red.

Use this black dot to calibrate.

Codes on black lines

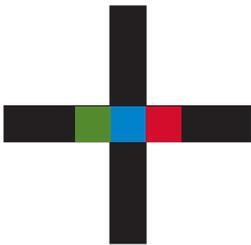

Tips: General

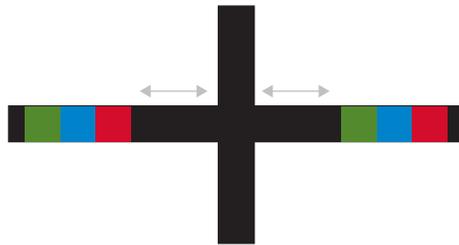

X
No codes on corners!

✓
Keep codes on straight lines away from corners

X
Too close!

✓
Place codes away from intersections

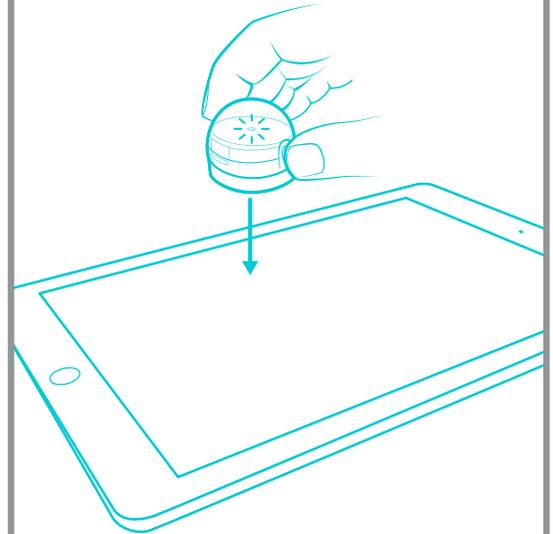

✓
All other codes need black line before and after

✓
2 color codes need to be at line end

Tips: OzoDraw

Before playing on a tablet or smartphone, you need to calibrate to the digital screen. Follow the calibration instructions in the "Ozobot Tuneup" section of our apps.
